

BLOCK JOINTING MORTAR

NANO BOND

Thin & Strong Blocks Jointing Adhesive :

Unique Bonding Adhesive for AAC, CLC Blocks & Precast Units, manufactured by taking consideration of high strength, stability and durability with selected raw materials, Modified cement and chemical.

Area Of Applications:

Masonry in AAC Block, concrete blocks, CLC blocks, etc.

Properties:

- Ready to use by adding proportionate water 18 - 20%
- High Bonding Strength & High Adhesion
- Initial fast Setting
- No Shrinkage Cracks
- No Curing Required

Coverage:

- Approx. 120 Sq. Ft. @ 3 mm Thickness (600 x 200 x 100 mm Block)

TDS:

- Pot Life: 2 hours ● Tensile Strength after 28 days: 0.46 N/mm²

Packing : 40 kg
